

WEB DEVELOPER J.

Web Development Junior in training at CF2M. I am currently looking for an internship opportunity from November for a duration of six weeks, to complete my 14-month training in full-stack web development with the hope of being hired afterwards.

Trained in various languages such as HTML, CSS, JavaScript and PHP. I have also gained practical experience with frameworks, libraries and CMS such as Bootstrap, AJAX, Symphony, jQuery and CDN like WordPress. In addition, I have the ability to manipulate databases with MySQL and design a mockup with Figma.
